

TRANSFORMATION OF THE PSYCHE, PART II: ALCHEMICAL PSYCHOLOGY SEMINAR

FOR THERAPISTS AND HEALING PRACTITIONERS | APPLY FOR CEU CREDITS

ALCHEMY & TRANSFORMATION: FURTHER ADVENTURES

Dreams, Images, Ancient Mysteries

Join us for this continuation of our exciting small group seminar in the fall, with fascinating new material to discover.

New and current participants are welcome! Alchemical imagery directly relates to the psyche's transformation in the process of individuation, healing, and psychotherapy.

C.G. Jung found a language of the psyche in the ancient tradition of alchemy. The irrational, imagistic, dynamic fantasies of the alchemists reflect the transformative movements of the psyche. These movements are happening **right now**, in the dreams, bodies, and fantasies of contemporary people.

This seminar will review essentials, and **then focus on alchemical images from alchemical manuscripts that Jung and others have mediated on.**

Each session will include conversation and images. **We will also examine dreams and artistic examples that illustrate themes from alchemical imagery.**

I encourage you to give me

a call or email to find out more about this stimulating group!
